

Anchors for rotator cuff and other parts repair

XtraLoc™ PK
SpeedLoc™ PK
Revocoil™ PK
QuickLoc™ PK
SutureLoc™ PK

SutureLoc™

- Smaller tunnel for implantation, 40% less bone removal
- Better anchor fixation strength
- Suitable for repair and fixation of multiple sites such as labrum, rotator cuff, and small joints

Product Code Specification
A311023 Φ 2.8x18mm (2"Blue- White/Blue)

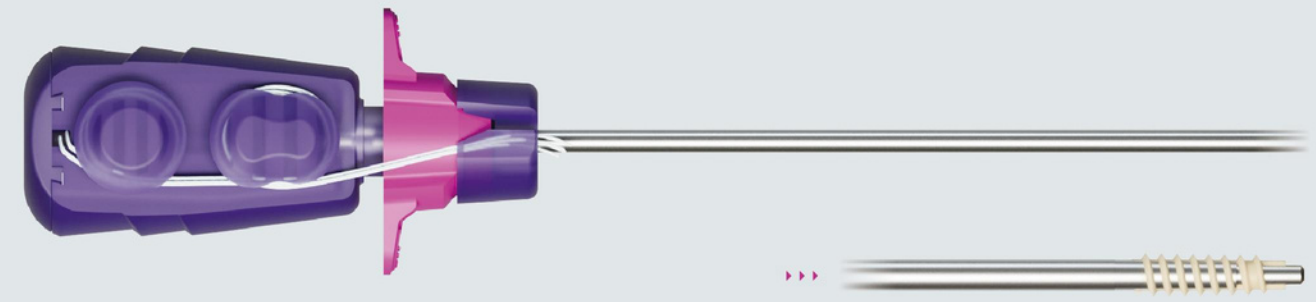

XtraLoc™ PK

- Knotless fixation
- Adjustable tension
- Superior pullout strength
- Side open design to facilitate bone ingrowth
- Can be used in conjunction with sutures and tapes for flexible combination, enabling various surgical procedures

Product Code	Specification
A302015	Φ 3.5×15mm (2#Blue-white)
A302013	Φ 4.75×19mm (2#Blue-white)
A302014	Φ 5.5×19mm (2#Blue-white)

Revocoil™ PK

- Hollow design, for more bone contact area and bone in-growth
- Less material, fewer foreign body implants
- Superior anti-torsion torsion and pull-out strength
- More procedure applications , flexible switching between sutures and tapes

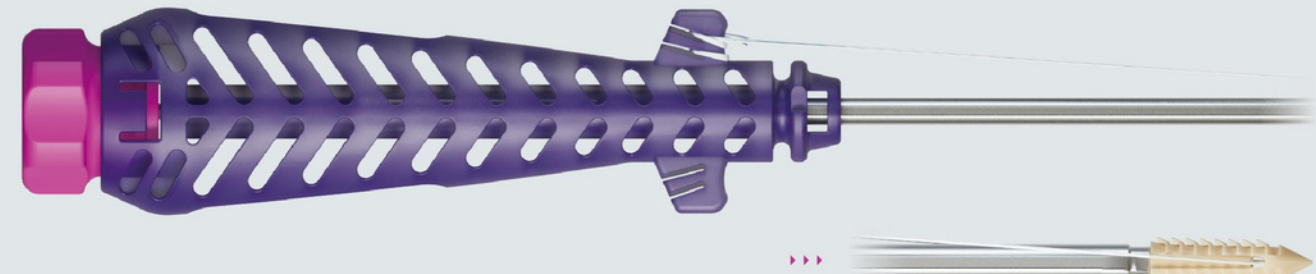

Product Code	Specification
A302032	Φ 4.5×19.5mm (2#Blue-White/White)
A302033	Φ 5.5×19.5mm (2#Blue-White/White)
A302034	Φ 4.5×19.5mm (2#White/Blue)
A302035	Φ 5.5×19.5mm (2#White/Blue)

SpeedLoc™ PK

- Transitional fully threaded anchor design, providing excellent bone fixation
- PEEK material. Excellent biocompatibility
- Independent dual suture holes design, reducing friction and entrapment risks between sutures

Product Code	Specification
A302024	Φ 4.5×19mm (2#Blue-White/White)
A302025	Φ 5.5×19mm (2#Blue-White/White)

QuickLoc™ PK

- Independent eccentric reverse-hooked geometric thread design, facilitating easier implantation while providing greater pullout strength
- The inner plug is specially designed for fine adjustment of suture tension to achieve precise fixation

Product Code	Specification
A302030	Φ 4.5×20.5mm (2-0#Blue)
A302031	Φ 5.5×20.5mm (2-0#Blue)
