ARTHROSCOPY

Para Tak™

- Dual suture high-low thread design, providing excellent pull-out strength
- Complete range of specifications, meeting the surgical needs for bone-to-soft tissue connections in multiple sites including shoulder, elbow, hip, wrist, and ankle.

• Product code Specification

A300005	Φ 2.8x11mm	Hexagonal No needle	(2#Blue-White)
A300006	Φ 3.5x13mm	Hexagonal No needle	(2#Blue-White/White)
A300008	Φ 5.0x16mm	Hexagonal No needle	(2#Blue-White/White)
A300015	Φ 2.8x11mm	Hexagonal needle	(2#Blue-White)
A300016	Φ 3.5x13mm	Hexagonal needle	(2#Blue-White/White)
A300018	Φ 5.0x16mm	Hexagonal needle	(2#Blue-White/White)

Mini Tak™

- Simple and easy to use, convenient for quick implantation
- Adaptable for precise repair in multiple sites, providing greater flexibility
- Classic design, long-tested fixation strength, worthy of trust
- Small in size, meeting the 'minimal' choice for repair in the original footprint zone during surgery, allowing for multiple implants
