

Blader-ultra™ Shaver Blade & Burrs

Shaver blade system

Unlimited innovation • Future-oriented mindset

ARTHROSCOPY

Equipment consumables

Shaver blades and burrs

- Compatible with Market mainstream handpiece
- The Shaver blades come in various forms, with high cutting/grinding efficiency, allowing for effective cleaning of soft tissue and bone in shoulder and knee joints.
- The inner core undergoes elastic treatment, providing higher tolerance and ensuring concentric rotation of the inner tube.
